

Notes:

- Les navigateurs web Firefox, Chrome et Microsoft Edge sont conseillés ces derniers temps dû aux restrictions de flux de données existantes à cause de la pandémie
- N'hésitez pas à nous contacter en cas de besoin de support technique
- Grand merci à Tomas pour son aide lors de la recherche de références pour la conception de ce guide

Utilisation d'un contenu "CC" (*Creative Commons*)

Il est primordial d'indiquer sur toutes nos productions un minimum d'informations concernant l'auteur des contenus qu'on utilise sur nos productions:

Titre du morceau/bruitage

Auteur

Licence: pour les productions visuelles nous rajoutons le logo officiel "CC" correspondant sur les génériques. Ils se trouvent tous sur ce lien: <https://creativecommons.org/about/downloads> (le format PNG est conseillé)

Les "bonnes pratiques des CC" sont contenues sur ce *CC Wiki*: https://wiki.creativecommons.org/wiki/Best_practices_for_attribution#This_is_an_ideal_attribution

Téléchargement de morceaux et bruitages/ effets sonores

Plusieurs sites proposent du matériel sonore *libre*, voici quelques exemples et comment accéder à leurs fichiers:

http://ccmixter.org/

Cliquer sur "SEARCH":

The screenshot shows the ccmixter.org website. At the top, there is a navigation bar with the ccmixter logo on the left, a search bar in the center containing the text "COVID-19 & Us Universe Secret Mixer", and a "Search Find content" button on the right. Below the navigation bar, there are several content cards. The first card is titled "Global Music Community" and features a globe icon. The second card is titled "Adapting to Crisis" and features a blue background with a yellow sun and the text "ADAPTING TO CRISIS". A red arrow points from the search bar to this card. The third card is titled "Support ccMixer on Patreon" and features a blue background with the text "SUPPORT ccmixter". The fourth card is titled "Explore Past Events" and features a blue background with the text "EXPLORE PAST EVENTS". On the left side of the page, there is a sidebar with several sections: "Visitors", "Artists", "dig ccmixter", "Support ccMixer", "Editors' Picks", and "Highest Rated".

Indiquer un genre, style ou thème précis sur "Search Text":

Vous verrez qu'il faut effectivement s'inscrire pour avoir accès au matériel: cliquez sur "Login to download":

The screenshot shows the freesound.org interface for a sound file. At the top, there are navigation links for 'Register', 'Log In', and 'Upload Sounds'. A search bar is visible. The main content area displays the sound file 'girlprettyvoicehumming.wav' with a green waveform. Below the waveform, the user 'nayruslove' is credited, with a download count of 6018 times and a 'Login to download' button highlighted by a red arrow. The page also includes a Creative Commons license notice and a comments section.

...puis sur "Register":

The screenshot shows the 'Login...' page on freesound.org. It features a login form with a 'Username or email' field containing 'yvanherrador@yahoo.fr' and a 'Password' field. A 'login' button is located below the form. A red arrow points to the text 'Don't have an account yet? Why not register?'. Below this, there is a section for 'Already a member?' with links for 'Reset your password', 'Resend activation code', and 'Forgotten username?'. The footer contains links for 'Developers', 'Blog', 'About', and 'Terms of use', along with a design credit to Pixelshell and code by MTG (UPF).

About

Searching for music can be annoying. First you have to find the right song, then you have to make sure it's license fits your plans. Reading pages of legal stuff isn't exactly fun, right? You should use that time instead to work on your project. That's why you can use all songs on whatfunk for free without worrying about legal issues. You don't have to give attribution either.

...simple:

The screenshot shows the MediaFire website interface. At the top left, there are 'SIGN UP' and 'LOG IN' buttons. The main header features the 'AnyDesk' logo and the text 'The world's best remote desktop solution.' with a 'Get It Now' button. Below this, there's a section with 'even faster and more stable.' and a 'More' button. The central part of the page displays a file download interface for '1 whatfunk - Chasing the Lights Audio (.MP3)'. A red arrow points to the 'DOWNLOAD (6.82MB)' button. The file details include 'File size: 6.82MB' and 'Uploaded: 2019-09-12 03:48:25'. There is also a section for 'About Audio Formats' and a 'System compatibility' dropdown menu set to 'macOS (your OS)'. At the bottom left, there is a 'RAPID7' logo and the text 'insightVM', 'insightIDR', and 'insightAppSec'.

<https://www.y2mate.com/en19>

On connaît tous des sites offrant une conversion A/V depuis Youtube. Ils ne sont pourtant pas tous stables; voici l'un d'entre ceux qui fonctionne correctement:

The screenshot shows the y2mate.com website. The header includes the 'y2mate.com' logo and a navigation menu with 'YouTube Downloader', 'YouTube Converter', 'YouTube to MP3 Converter', and 'English'. The main content area features the text 'Download Video and Audio from YouTube' and a search bar with the placeholder text 'Search or paste link here...'. A red 'Start →' button is positioned to the right of the search bar. Below the search bar, there is a small disclaimer: 'By using our service you are accepting our terms of use.'

Il ne faut jamais oublier de lire attentivement les descriptions des vidéos/audios qu'on veut télécharger et utiliser par la suite. S'assurer que l'auteur nous autorise et quelles sont ses conditions -titres à indiquer- afin de respecter et nous faire respecter sur Youtube et autres. Un exemple:

* Une conversion vers m4a -dans ce cas-ci- ou d'autres formats est fortement conseillée. La plupart des logiciels de montage trouvent des difficultés en traitant une piste audio contenant du mp3:

Video	mp3	Audio
File type	FileSize	Download
.mp3 (128kbps)	1.8 MB	Download
.m4a (128kbps)	1.8 MB	Download

Conversion des différents formats audio

L'utilisation des formats AIFF et WAV (dans cet ordre) reste fort conseillée, non seulement par leur éventuelle condition "lossless" et volume de *bitrate*, mais également pour des raisons de reproduction des séquences sur nos logiciels de montage.

On connaît tous AUDITION, contenu sur la suite d'outils Adobe, néanmoins il existe d'autres logiciels *freeware* disponibles sur le réseau; voici quelques beaux exemples: <https://www.lifewire.com/free-audio-converter-software-programs-2622863>

et encore: <https://www.freac.org/downloads-mainmenu-33>

Tenez-vous bien et à bientôt!
